## INFO ON TUTORING

**MATH** Trouble keeping up? Give me a call. I have helped many students at school and uni level get back on track, prepare for exams, and free themselves from vocational studies.

- Never had a student fail an exam.
- Get ahead in tier
- Learn to study on your own!

**PHYSICS** Vectors, Force, Newtons laws, Movement, all physical phenomena have an explanation though the subjects studies here.

- Understand intuitively physical phenomena
- Take on any problem thrown at you in a test!
- Uni level physics
- Need help for a project? Please don't hesitate to give me a call

**BIOLOGY AND CHEMISTRY** The basis of life lies within the microscopical world. Review subjects in inorganic chemistry, organic chemistry nomenclature, redox reactions, etc. Take your science class head on with subject reviews on biology aswell.

- Need help in a research project?
- Interested in the environment? I have a passion for conservation biology
