Abstract

Replace this text with your **abstract**. This section is mandatory. The content is a summary of your article. If your author and affiliation lists and CRediT roles are long, the abstract may run over the first page in 'preprint' mode. If this is the case, please attempt to shorten your abstract; however, if it is not reasonably possible please contact admin@sedimentologica.org.

This preprint was
generated using the
Sedimentologica
 **template**

Plain language summary

Replace this text with your **plain language summary**. This section is mandatory. The content is a simplified summary of the article, suitable for non-experts. It should be as clear and concise as possible.

Abstract

This section may be used to provide translations of the abstract and plain language summary. Use `\translation{language}{section}{text}` where language is the [babel language name](#) (e.g. french), section is the literal translation of 'Abstract' or 'Plain language summary', e.g. 'Résumé' or 'Résumé vulgarisé' respectively for French.

1 Introduction

This is a mandatory section, replace this text.

See the example file and README for additional instructions for use of the template.

2 Section1

This is a section.

2.1 SubSection1

This is a subsection.

2.1.1 SubSubSection1

This is a subsubsection.

3 Conclusions

This is a mandatory section, replace this text.

Acknowledgements

Replace this text with your acknowledgements.

Data and code availability

Data used in this paper is hosted on Zenodo at doi.org/10.1000/182, \cite{ExampleCitation}.

The code used in this paper is available via [and archived on Zenodo at doi.org/10.1000/182](https://doi.org/10.1000/182), \cite{ExampleCitation}.

Supplementary materials

If you have any additional supplementary material hosted in a repository for this manuscript please replace this with a statement linking to the doi, and add the citation, e.g. Supplementary material for this paper can be found at doi.org/10.1000/182 \cite{ExampleCitation}.

Conflict of interest statement

The authors declare they do not have any tangible or perceived conflicts of interest with regard to this research.

Artificial intelligence use statement

All research, analysis, writing, and editing were performed without generative AI assistance.

Funding

Declare sources of funding for this research.
